1. Mr. Walsh reported on the effort over the weekend to sanitize papers in response to the House Select Committee's subpoena on SALT compliance and the 1967 Middle East War. Mr. Walsh said that he himself had been engaged in drafting his sixth statement on Sam Adams which, it was hoped, would be presented in some form to the House Select Committee.

2. The Director has said he wants to complete 3 projects before leaving office: The annual report on the Intelligence Community, the KEP report, and the Community budget.

3. Mr. Walsh said that nominees were being sought for Tom [redacted] job as deputy to Ben Evans.

4. [redacted] and Mr. Ernst each reported on their recent trips.

5. Mr. Eisenbeiss reported on a meeting [redacted] had attended on the Defense Department's complaints about DCID 1/7 (control markings). It looks as if the DCID will probably be revised. Mr. Eisenbeiss said he would have AEGIS runs made to determine how often each of the new markings was being used.
